

Imagine Update

November 2006

1. Our civil engineering team will begin on-site work at the end of November developing our conceptual grading and utilities plans.
2. The team is targeting the end of December to have the plans completed.
3. The Long Range Planning Committee (LRPC) will meet in the beginning of December to review the progress of the site plans, building plans, elevations, and conceptual landscape plans.
4. We are working toward starting the entitlement process with the city in the first quarter of 2007 as we move closer towards beginning the building phase, targeted for the fall of 2007!

Prayer Requests

1. Pray for things to go smoothly throughout the civil engineer's planning process and that they will be able to complete their work on time.
2. Pray for the LRPC's efforts and that the details will all come together as they work towards their December target date.
3. Pray for the LRPC as our project moves into the next several phases, their work will become even more intensified.

God's richest blessings,
